

Ride Farther on Goodyear Tires in Your Small Car

It is tire performance, not price, that decides what you really pay; hence, do not experiment with tires made to sell at sensationally low prices.

You can secure in Goodyear Tires, of the 30x3-, 30x3½- and 31x4-inch sizes, a high relative value not exceeded even in the famous Goodyear Cord Tires on the world's finest automobiles.

Goodyear experience and care are applied to their manufacture in the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires; take advantage of the opportunity to get true Goodyear mileage and economy.

ANNOUNCEMENTS

We are authorized to announce CHARLEY EDWARDS as a candidate for the Republican nomination for County Clerk of Lawrence Co., at the primary to be held in August, 1921.

Friday, September 10, 1920.

Gov. Cox is on a 30 days tour of the west, speaking several times each day. He is greeted everywhere by large and enthusiastic crowds, who applaud and admire his pointed and courageous utterances. He dodges nothing. In the east he had the same great meetings. His election is being freely predicted.

The Martin County Advertiser is the name of a newspaper just started at Warfield, Ky. The first issue is a new and well edited paper. The editor and publisher need not be ashamed to print his name on the sheet. For that or some other reason he has failed to do so.

There is only one way to meet all American needs. That one way is work. Prices will not come down until production increases, no matter who is Governor or President, or whether Congress is Republican or Democratic. The law of supply and demand is the only remedy. Idleness and half-time work are doing more to nullify that law than all other things combined. You can not reduce the cost of living by howling about it. But the cost can be reduced by everybody doing more and better work in every line.

Report of James P. Prince, Secretary of Lawrence Co. Sunday School Association

I have visited the State convention, also 5 district conventions and have written about 20 letters. Have visited 12 different schools, some three or four times, giving about 20 Sunday School talks during the year; traveled over 400 miles. At my last report I had \$3.70 in my hands; since that time have received from Charley convention schools \$3.50, making a total of \$12.20. I gave the State Secretary check for same. Since then received from Elizabeth Hatten \$5.33, this amount is still in my hands.

We think the Sunday School work is improving fine as we find 55 schools in the county and there may be some we have not heard from. There have been but two district conventions held this summer. I trust the district officers will go to work and hold their conventions at once. We should be encouraged in this year's work as we are having more schools and better schools than for some time.

As we will soon enter on a new year's work, let us all work harder and pray more than ever before. The Sunday School workers will never know what great good they are accomplishing but go on do your best and leave the results in the hands of God who will do all things right.

There is one thing we all should be proud of, there are more schools in Lawrence county than in any county east of Covington, in fact there are very few counties in the State having more schools than Lawrence county.

I don't think there is a county in the State that has less criminals than Lawrence. I think the Sunday Schools have a great deal to do with it. The fight that commenced 25 years ago in favor of temperance has gained the victory and John Barleycorn is almost a thing of the past.

The Sunday School Convention this year was a sad one as Hon. R. T. Burns had just passed away. He was a great friend to the Sunday Schools as he was president of the Lawrence County Association for 20 years. When I was holding district conventions I was glad to see Brother Burns coming as he always put new life into a convention.

I can imagine how he would sing "We'll roll, roll, the old chariot along." "D. L. Moody said some day it would be a dispatch over the wires. "D. L. Moody is dead," but there wouldn't be a word of truth in it. I will be more alive than ever before. So brother Burns is not dead and will still live in the minds of the Sunday School people of Lawrence county.

Apparel of Distinction and Quality--Exclusively

Is Featured In Our Autumn Exhibits

"Quality" is the most abused word in the entire vocabulary of many mercantile establishments. It is often used without real thought or meaning, and frequently from mere habit and ignorance. The most flagrant form of abuse is to claim quality for the shoddy garment of good outward appearance that possesses "inward" defects of making and materials.

The Test of Quality

Most women are good judges of fabrics, and this knowledge is of first importance in the selection of any garment. Often inferior apparel is good in this respect, but would not stand the test of closer inspection. Analyze the garment that appeals to you—inspect the lining, the stitching—then try it on. Note the depth of the hem, the "set" of the shoulders, and especially he back where inferior tailoring is most often revealed. Look for skimpiness and imperfections, for quality is impossible where the accepted standards of good manufacturing are ignored. If a garment will stand this minute inspection, it is no doubt of good quality—and quality is all-important.

The Assurance of Quality

Any garment you may purchase from us is sold to you in good faith. Our years of experience in purchasing for a particular clientele have made our demands for quality a rule to which there are no exceptions. Here, true quality is a settled fact, and prices are consistent with real worth.

These New Woolens' mystic oriental color makes them ever so lovely. Fragile bits of Chinese pottery might have been the inspiration for some of these soft color harmonies—for the subtle blending. It's most like a journey into fairyland to view their fanciful tones.

TOILE-DE-LAINE has always conveyed "quality" to womankind—its soft mat finish distinguishes it. In sparrow, tan and suchow which is like Chinese blue that's been softened by the ages.

SILVERTONE—One wonders when viewing it if it is suede, with its smooth surface, soft as a peach, in two shades of open blues, reindeer and bedouin—a desert sand sort of a shade.

TINSELTONE—A real wool that will wear, in jap blue, pekin, contour, malay—is a dead leaf sort of hue, and ming—a cool looking blue grey.

These woolens themselves have depth and softness of finish.

NARVELLA was just meant to fashion those big, loose wrappy sort of coats—the sort that show grace, like fluttering butterflies in soft breezes.

SUMMER SALADS.

There is no dish which is more appealing to the appetite during the warm weather than crisp, succulent salads or those of juicy fruit.

Onion Salad.—Chop mild onions; add minced parsley and pour over a well seasoned dressing. Serve on head lettuce.

Strawberry Salad.—Arrange tender, white lettuce leaves in cup shapes. Fill each cup with strawberries and put a tablespoonful of mayonnaise in each cup. Mustard and cayenne should be omitted from the mayonnaise.

Grapefruit and Celery Salad.—Mix grapefruit pulp with finely cut celery, using twice as much grapefruit as celery. Serve on lettuce with mayonnaise.

The Three P's.—Take a cupful each of stewed quartered pines, pineapple and rolled peanuts; mix well and serve in lettuce cups with a French dressing.

Tomato and Chive Salad.—Peel and chill small, ripe, round tomatoes; roll in a boiled salad dressing, then in chopped chives. Arrange on the white leaves of lettuce and serve well-chilled.

Pea and Walnut Salad.—Take equal quantities of cold cooked peas and English walnuts, broken in bits. Sprinkle with French dressing, let stand half an hour and mix with mayonnaise. Serve in lettuce or lemon cups.

Mustard and Lettuce.—Take the small green mustard plants, mix with young lettuce and serve with French dressing. The mustard, cut fine and mixed with cottage cheese, makes a most tasty salad, adding a little cooled salad dressing.

Radish and Onion Salad.—Cut in thin slices, without peeling, small radishes, and the same-sized onions; arrange on lettuce and serve crisp and cool. Pass the salad dressing, either mayonnaise or French.

WEAK; RUN-DOWN

Julia Lady Got So She Could Just Drag.—"Cardui Built Me Up," She Declares.

Kernersville, N. C.—In an interesting statement regarding Cardui, the Woman's Tonic, Mrs. Wesley Mabe, of near here, recently said: "I have known Cardui for years, but never knew its worth until a year or so ago. I was in a weakened, run-down condition. I became draggy—didn't eat or sleep to do any good; couldn't do anything without a great effort. I tried different remedies and medicines, yet I continued to drag."

"I decided to give Cardui a trial, and found it was just what I really needed. It made me feel much stronger soon after I began to use it. I began to eat more, and the nervous, weak feeling began to leave. Soon I was sleeping good."

"Cardui built me up as no other tonic ever did."

"I used Cardui with one daughter who was puny, felt bad and tired out all the time. It brought her right out, and soon she was as well as a girl could be. We think there is nothing like Cardui."

Do not allow yourself to become weak and run-down from womanly troubles. Take Cardui. You may find it just what you really need. For more than 40 years it has been used by thousands and thousands, and found to be a true tonic.

As Mrs. Mabe describes, **NO-143**

FOURTH RED CROSS ROLL CALL ANNOUNCED

Announcing the Fourth Red Cross Roll Call, to be held between November 11 and November 25, 1920, Dr. Livingston Farrand, chairman of the Central Committee, made known the fact that as a result of last year's Roll Call, the American Red Cross has ten million members.

The Red Cross has decided to make each anniversary of the ending of the world war the occasion for renewing allegiance to the "Greatest Mother" by means of the dollar membership. Thus the Fourth Roll Call will have for its purpose the maintenance of as nearly universal membership as possible and the support of peace time activities.

These activities are continuation of measures in behalf of America's veterans of the World War, particularly the disabled; service to the peace time Army and Navy; development of a stouter resistance to disease through health centers; increasing of the country's nursing resources; continued preparedness for disaster relief; Home Service and community work; and completion of relief work among the war-exhausted and disease-ridden peoples overseas.

QUESTIONNAIRE BRINGS MONEY FOR VACATION

In a certain Lake Division town, there's a mother of a former soldier who has nearly \$100 extra to spend for herself this summer.

The Red Cross Home Service section in that community sent questionnaires to all ex-service men, asking them if all their war-time affairs had been satisfactorily settled.

The particular soldier in question was discharged soon after the Armistice and had never learned that some travel pay was due him. After he had read over the questionnaire he decided to look up the Home Service secretary and find out about some of the things noted among the queries.

As a result, he just received a check for \$96.48 that he didn't know was due him until the Red Cross questionnaire came. He gave the money to his mother for a vacation. This is a typical example of the service given by the Red Cross.

RED CROSS NURSES WIN SCHOLARSHIPS

Nine Red Cross chapters in the Lake Division have given scholarships for a four-months' post graduate course in Public Health Nursing at Western Reserve University, Cleveland, to nurses in their communities.

On completion of their study Sept. 1, they will return to their homes and carry on the Public Health Nursing program of the Red Cross, which includes visiting nursing, school nursing, instruction work, and general community service in caring for health.

Chapters, which have awarded these scholarships are: Richmond, Union County, Ohio; Laramie, Ind.; Fort Wayne, Ind.; Montpelier, Williams County, Ohio; Zanesville, Ohio; Brazil, Ind.; South Bend, Ind.; West Alexandria, Ohio, and Bluffton, Ind.

TRAINING COURSES OPEN FOR TRAINING RED CROSS WORKERS

In the summer session at Ohio State University, Columbus, the Red Cross, in co-operation with the university, is offering a six weeks' course of training for persons who wish to become Red Cross executive secretaries or chapter managers.

This is designed to meet the demand for trained executives to promote the Red Cross peace time program. Instructors include prominent men on the university faculty, National and Divisional Red Cross leaders and others of national repute.

COMMUNITY INSPIRED TO INCORPORATE TOWN

Coke Otto, a small mining community near Hamilton, Ohio, isn't content to be just a group of people any longer.

Coke Otto wants to be an incorporated town.

And it's all the result of community meetings and activities inaugurated by the Rural Extension Secretary of Hamilton Chapter of the Red Cross.

When Hamilton engaged its rural worker, she went among other places to Coke Otto, where perhaps 700 people live. Sanitary conditions were very lax there, so one of the first movements was the organization of a "tin can brigade."

This was divided into eight sub-regiments and prizes were offered the group that kept the most rubbish out of the community for a specified length of time.

Subsequent community meetings have shown the people of Coke Otto the need for street clean-ups, flood protection and sanitation. After the third meeting the community decided that better and quicker results could be obtained through united efforts. Hence the plan to become an incorporated town.

Armistice Day, November 11, to Thanksgiving Day, November 25—the Fourth Red Cross Roll Call.

DO YOUR DUTY

Do your duty, little man,
That's the way;
There's some duty in the plan
Of every day.
Every day has some new task
For your hand;
Do it bravely—that's the way
Life grows grand.

"Do your duty" sing the stars,
That so bright
Through the midnight's dusky bars
Shed the light.
"Do your duty" says the sun
High in heaven;
To the dutiful, when tasks are done
Crowns are given.

Crowns of power and crowns of fame;
Crowns of life;
In glory burns the victors name,
After strife.
Do your duty, never swerve—
Smooth or rough—
Until God, whom we all serve,
Says "Enough."

Luella, Clark.

Good motherhood calls for a great deal of sacrifice, but it never calls for the sacrifice of a reasonable husband's happiness. The most appreciative and fond fathers like to talk of something sometimes besides "the baby." They like to go places sometimes without the baby. Yet many a good woman fails to understand her husband's feelings in this matter. She humiliates him by accusing him of jealousy of his own children. She forgets that she took the vows of wifehood before she took the duties of motherhood. To be sure she must give her children tender care and attention. Any woman who did not would be a monstrosity. But there are times when her personal presence and advice would mean heaven to her husband while to the children it is no more than they have always had.

Is contentment a state of mind to strive for? It has always been considered so, but isn't it rather a dangerous quality? Doesn't it tend rather toward sluggishness? A cow is a perfect picture of content, but who wants to be a cow? Contentment may be a desirable state of mind for age but never for youth. In our smaller village we see too many who have become contented with themselves and their lot early in life? Don't do it! Never be satisfied with yourself! Never give up the struggle to improve your mind and your position! It is the most effective weapon against old age. As soon as you sit back and begin to take life easy, old age is going to overtake you by leaps and bounds.

Contentment, in the commonly accepted meaning of the term, is not a good trait for anyone. Develop poise and calm judgment, but strive always for higher and better things. Contentment smacks too much of self-satisfaction.

Too many of our young people are waiting for "the golden opportunity." They believe they will recognize it by some psychic wave which will pass over their being. Weak men wait for opportunities but strong men make them. They seize common occasions and make them great. History is full of such instances—chances which most people would have thought impossible to take. Think of the time when Horatius with two companions held ninety thousand Trojans at bay until the bridge across the Tiber had been destroyed—when Leonidas at Thermopylae checked the mighty march of Xerxes—when for years Napoleon did not lose a single battle in which he was personally engaged—when Sheridan arrived at Winchester just in time to keep the Union retreat from becoming a rout by riding along the lines.

It is true that these men are above the average in daring and clear thinking but it is also true that the obstacles they overcame were above the average. We cannot all be Napoleons but we do not all have obstacles such as the Alps to cross.

A sculptor at one time made the figure of a man whose face was concealed by hair and which had wings on its feet. He called the figure Opportunity. "Who hair over his face," he explained, "is there because people seldom know him when he comes to them. He has wings on his feet because he is soon gone and once gone, cannot be overtaken."

Why wait, young people, for opportunity—make it. Born in a country and in an age when opportunities abound as never before, why sit with folded hands?

"Are you, in earnest? Seize this very minute.
What you can do or dream you can, begin it."

The Certain-teed Guarantee as a Basis for Estimating Roofing Cost

The Certain-teed guarantee provides a basis for estimating the approximate cost per year of your new roof. Certain-teed Roofing, Number 3 Heavy, is guaranteed for fifteen years. It usually lasts longer.

Taking fifteen years as the assured life and dividing the unusually low cost of Certain-teed, as compared to most modern types of roofing, by this figure, you readily see how economical Certain-teed is.

The light and medium weights of Certain-teed are also guaranteed, five years for the former and ten years for the latter.

In addition to its durability, Certain-teed is weather-proof, fire-retarding and spark-proof.

And it costs less to buy, less to lay and less to maintain than any other type of good roofing.

See a Certain-teed dealer about roofing. If he hasn't enough of the weight you want in stock he can quickly get more from a nearby Certain-teed warehouse or distributing center.

The Certain-teed Guarantee as a Basis for Estimating Roofing Cost

The Certain-teed guarantee provides a basis for estimating the approximate cost per year of your new roof. Certain-teed Roofing, Number 3 Heavy, is guaranteed for fifteen years. It usually lasts longer.

Taking fifteen years as the assured life and dividing the unusually low cost of Certain-teed, as compared to most modern types of roofing, by this figure, you readily see how economical Certain-teed is.

The light and medium weights of Certain-teed are also guaranteed, five years for the former and ten years for the latter.

In addition to its durability, Certain-teed is weather-proof, fire-retarding and spark-proof.

And it costs less to buy, less to lay and less to maintain than any other type of good roofing.

See a Certain-teed dealer about roofing. If he hasn't enough of the weight you want in stock he can quickly get more from a nearby Certain-teed warehouse or distributing center.
